### What is eBahn®?

eBahn® is a software application which allows you to access automotive technical repair information from your computer.

### What are eBahn® Media Kits?

eBahn® Media Kits are DVDs that contain the eBahn® Reader program along with the encrypted repair manual content for the current vehicle platforms associated with a car make, either Volkswagen or Audi. eBahn® users purchase vehicle-specific License Serial Numbers that unlock the repair manual content on the DVD.

### Why get an eBahn® DVD Media Kit?

**To upgrade from a previous eBahn® version** – Registered users of previous editions of eBahn® (Version 2.5 and older) can use the online upgrade form to upgrade their eBahn® Reader to Version 3.0. Visit [www.BentleyPublishers.com/ebahn/v3/upgrade.htm](http://www.BentleyPublishers.com/ebahn/v3/upgrade.htm)

**Value for multiple platform users** – Shops, independent technicians or users who need information on more than one vehicle will find using a DVD Media Kit a better value than purchasing individual eBahn® CD-ROMs. eBahn® License Serial Numbers cost \$89.95 per vehicle platform versus \$99.95 for individual CD-ROMs.

**Less packaging** – eBahn® users planning to install the entire content onto the hard drive won't need the CD-ROM jewel case

### I have my eBahn® DVD Media Kit, what do I do next?

If you are upgrading from a previous edition of eBahn®, visit the eBahn® section of [www.BentleyPublishers.com](http://www.BentleyPublishers.com) and follow the links to the Online Upgrade form

If you are using eBahn® for the first time, visit [www.BentleyPublishers.com/ebahn/v3/buyserialnumber](http://www.BentleyPublishers.com/ebahn/v3/buyserialnumber) to purchase the License Serial Numbers. Using your serial number, you can use our online activation process to unlock your content that will unlock the repair information content. eBahn licenses are available by vehicle platform.

### How do I know I have the most current version of eBahn®?

Once you installed and registered your eBahn® repair information, you can access the "Check for Updates" function under the Help pull-down menu. This function will check to see if there have been any updates to either the eBahn® Reader or the repair information
