

Alfa Romeo All-Alloy Twin Cam Companion: 1954-1994

Four-cylinder History, Care, and Restoration: Giulietta, Giulia and Alfetta Families

Price: \$39.95
 by Pat Braden
 Bentley Stock Number: GALG
 Publication Date: 2004.may.3
 ISBN: 0-8376-0275-0
 Softcover, 8-3/8 in. x 11 in.
 296 pages, 392 b/w photos and illustrations

This book provides an excellent technical and historical overview of the Giulietta and Giulia family of small sporting roadsters, coupes and sedans. If an Alfa Romeo had one of the all-alloy four-cylinder engines and reached production, it's covered in the *Alfa Romeo All-Alloy Twin Cam Companion*. That means that even after the Giulia name was dropped-particularly in the United States-the many variants of Duetto, GTV, Berlina and Alfetta are covered, from 1954 through 1994 when the final Alfas-including the four-cylinder Spiders-were sold in the United States.

Braden starts with a brief overview of Alfa Romeo history, followed by a look at Alfa's presence in America. He also explores the major models of coupe, spider and berlina that used the all-alloy four-cylinder, as well as the limited production variants. Of course, he also gives much attention to that mighty engine itself. Braden explains the design and history of the engine, as well as exploring trouble spots and offering extensive advice and tips. Additional technical sections focus on the fuel system, transmission, brakes and chassis, not to mention overall restoration.

"This work, like Pat's previous efforts, is certainly a product of his abundance of enthusiasm, hopefully written in the light of the alcohol lamp we fueled with 159 methanol for him. His keyboard may be silent, but this volume remains as technical history for all Alfisti to savor."

—Don Black, retired chief engineer of Alfa Romeo, Inc.,

1958 Giulietta Spider Veloce - Style and high performance came with every Giulietta Spider Veloce.
