and Clutch*

Features:

Now available for the first time as a single volume is the Volkswagen Transporter Workshop Manual: 1950-1962 for models sold in the USA and Canada. This manual is an historical record of the illustrations and procedures for routine maintenance, troubleshooting, repair and rebuilding, including:

- Engine and cylinder head service, repair and reconditioning, including bench testing procedures and specifications for 25 through 40 hp motors.
- Solex 26 VFIS, 28 PCI, and 28 PICT carburetors as well as fuel pump troubleshooting, rebuilding, and adjustment.
- Transmission removal, rebuilding, and adjustment, including early and later versions.
- Frame and floor repair with measurements and detailed cutting, alignment and welding instructions.
- Body repair and replacement procedures, including the sliding fabric sunroof. Detailed painting preparation and procedures.
- Wiring diagrams identified by year.
- All factory changes and updates are noted in the text by manufacturing date, chassis number, engine number or part number.
- Full explanations of the operation various systems, with exploded views, cutaways and diagrams.
- Required workshop equipment, tools, and equipment for local manufacture listings.
- Troubleshooting tables for clutch, carburetor, fuel pump, steering, brakes, generator, starter, and wipers.
- Maintenance and lubrication charts and procedures.
